

# Animals Including Humans:

## Impact of Drugs and Alcohol

<p><b>Aim:</b> To recognise the impact of drugs on the way their bodies function in the context of drugs and alcohol.</p> <p>I can explain the impact of drugs and alcohol on the body.</p> <p>To identify scientific evidence that has been used to support or refute ideas or arguments in the context of changing attitudes to smoking.</p> <p>I can describe how scientific evidence highlighted the dangers of smoking.</p>	<p><b>Success Criteria:</b> I can describe the parts of the body affected by drugs.</p> <p>I can describe the parts of the body affected by alcohol.</p> <p>I can describe the parts of the body affected by smoking.</p> <p>I can explain how scientific evidence can change ideas.</p>	<p><b>Resources:</b> <a href="#">Lesson Pack</a></p> <p>Glue</p> <p>Scissors</p> <p>Felt Tips</p> <p>Colouring Pencils</p>
	<p><b>Key/New Words:</b> Human, body, impact, evidence, smoking, drugs, legal, illegal, alcohol, heart, stomach, liver, kidneys, lungs, air sacs (alveoli), brain, mouth, fingers, toes, blood vessels.</p>	<p><b>Preparation:</b> <a href="#">Impact of Drugs and Alcohol On The Body Activity Sheets</a> - 1 per child</p>

**Prior Learning:** Children will have learnt about the impact of exercise and nutrients on the human body in lesson 4.

### Learning Sequence

	<p><b>Drugs:</b> What are drugs? Can you give examples? Children discuss with their talk partner and give feedback to the class. Are all drugs bad? How do you know?</p>	
	<p><b>Drugs and Alcohol: The Facts:</b> Read through the information about legal and illegal drugs and alcohol.</p>	
	<p><b>Impact of Drugs And Alcohol On The Body:</b> Distribute the differentiated <a href="#">Impact of Drugs and Alcohol on the Body Activity Sheets</a>. Children will label the body with the effects of different substances on different body parts. Check that children have understood the impact of different substances on the body.</p> <div> <div> <p>Children match the effects of substances to parts of the body.</p> </div> <div> <p>Children identify parts of the body and label the effects of substances.</p> </div> <div> <p>Children identify parts of the body affected and label the effects of substances.</p> </div> </div>	
	<p><b>Short History of Smoking:</b> Read through the information about the origins of smoking in the Americas, about the export of tobacco to other parts of the world, and finally about how attitudes to smoking changed due to evidence.</p> <p><b>Smoking Tobacco:</b> Read information about the negative effects of smoking on the body.</p>	
	<p><b>Impact of Smoking on the Body:</b> Children complete their differentiated Impact of <a href="#">Illegal Drugs and Alcohol Activity Sheets</a> by adding information about the impact of smoking on the body. All children will add fact boxes highlighting how and why attitudes to smoking have changed over time. Check that children understand the impact of smoking on the body as ascertained from the scientific evidence presented to them.</p>	

### Taskit

**Researchit:** Run through the [Year 6 Alcohol and Drugs Role Play Scenario Activity](#) (See the [Teachers Notes](#) for further guidance).

**Labelit:** Write a poster that suggests strategies for saying no to harmful substances.
